

Blum Legrabox Symmetrical Internal Cover Cap – Orion Grey

Variant code: ZA7.5700.BT.OG

Streamline your projects and enhance the aesthetic appeal of your cabinetry with the Legrabox Symmetrical Internal Cover Cap in sophisticated Orion Grey.

Designed for seamless integration with Blum's Legrabox drawer system, this internal cover cap offers a refined finishing touch that will resonate with discerning clients and simplify your installation process. Its symmetrical design ensures consistent aesthetics across all drawer configurations, contributing to a high-quality, professional outcome every time.

Key Benefits for Your Business:

- **Enhanced Aesthetics:** The elegant Orion Grey finish adds a touch of modern sophistication to drawer interiors, appealing to architects and kitchen designers seeking premium details.
- **Consistent Design:** The symmetrical design guarantees a uniform look across all Legrabox drawers, simplifying specification and ensuring visual harmony throughout a project.
- **Effortless Installation:** Designed for quick and intuitive fitting, saving valuable time for joiners and project managers on site.
- **Durable and Reliable:** Manufactured to Blum's renowned quality standards, ensuring long-lasting performance and client satisfaction.
- **Professional Finish:** Elevates the overall perceived value of your cabinetry, setting your work apart from the competition.
- **Versatile Application:** Suitable for a wide range of applications, from high-end kitchens and bathrooms to commercial and residential storage solutions.

Why Choose the Legrabox Symmetrical Internal Cover Cap?

As a **joiner**, you'll appreciate the ease of installation and the flawless finish this cap provides, reducing snagging and ensuring smooth

drawer operation.

For **architects** and **kitchen designers**, the Orion Grey finish offers a contemporary and versatile colour option that complements a wide range of material palettes, allowing for cohesive and stylish designs. The symmetrical design ensures a consistent aesthetic, simplifying your specifications and delivering a polished look.

Project managers will benefit from the product's reliability and straightforward installation, contributing to efficient project timelines and minimising potential issues on site.
