Blum Legrabox Inner Drawer Front - Cut to Size With Groove - 1043mm - Silk White

Variant code: ZV7.1043MN1SSW

Blum LEGRABOX Inner Drawer Front - Cut to Size No Groove is designed for use in inner drawer configurations within the LEGRABOX system, providing a **clean internal finish**, **precise fit** and **flexible sizing** for bespoke cabinetry applications. As part of Blum's premium drawer platform, it supports concealed inner drawer designs while maintaining consistent system performance and alignment.

Manufactured to be **cut to size**, this inner drawer front allows accurate adjustment to suit specific cabinet widths, ensuring a precise fit within the drawer assembly. The **no groove design** provides a plain, uninterrupted surface, making it suitable for applications where routing or additional fixing preparation is not required. It integrates seamlessly with LEGRABOX fixing components to deliver **secure attachment** and **consistent positioning**.

Engineered for compatibility with LEGRABOX drawer systems, the inner front contributes to **stable drawer construction** and **smooth operation** when used with matching runners and hardware. Its adaptable sizing makes it suitable for both standard and bespoke cabinetry installations.
