Lever Action Flush Bolt - 609 x 20mm - Satin Stainless Steel

Variant code: 3425.06.SSS

The **Lever Action Flush Bolt** is a premium concealed door bolt designed to provide secure and discreet locking for the inactive leaf of timber double doors. Measuring **609mm x 20mm**, this flush bolt features a smooth lever-operated mechanism that allows quick and reliable engagement while maintaining a clean, unobtrusive appearance. Finished in **Satin Stainless Steel (SSS)**, it complements modern architectural ironmongery and is suitable for a wide range of commercial and residential applications.

Manufactured from high-quality stainless steel, the flush bolt is engineered for long-lasting durability and dependable performance in demanding environments. The recessed design allows the bolt to sit flush within the door edge, preserving the aesthetics of the door while providing secure top or bottom locking. Its simple lever action ensures effortless operation, making it ideal for frequently used double door installations where reliability is essential.

Perfect for new-build developments, refurbishment projects and commercial fit-outs, the Lever Action Flush Bolt offers a durable, low-maintenance solution for securing secondary door leaves while maintaining a professional architectural finish.

Product Features

- Lever action flush bolt
- Overall size: 609mm x 20mm
- Premium Satin Stainless Steel (SSS) finish
- Concealed recessed installation
- Smooth lever-operated locking mechanism
- Durable stainless steel construction
