Light Duty Continuous Hinge CSK - 2040 x 25 x 0.7 x 1.7mm Pin - 304 Stainless Steel

Variant code: 725.SSS

This product is a **Light Duty Continuous Hinge**, also widely known as a **Piano Hinge**, manufactured from **premium 304 Stainless Steel** for superior **corrosion resistance** and **lasting durability**. Designed specifically for applications requiring a **full-length hinge solution**, this 2040mm (approximately 6.7 feet) hinge provides **smooth, consistent movement** and exceptional support along the entire length of a door, panel, or lid. The continuous nature of the hinge **distributes stress evenly**, making it ideal for lighter duty installations where strength and aesthetic continuity are key. Its **Countersunk (CSK)** holes ensure a **flush finish** when using flat-head fasteners, offering a clean, professional look and preventing snagging. This hinge is a **versatile** choice for a wide range of uses, from cabinetry and locker doors to access panels and custom furniture projects, guaranteeing a **reliable** and **seamless**

The hinge's specific dimensions—25mm open width, 0.7mm material thickness, and a 1.7mm diameter pin—are engineered for a **compact**, yet **robust** performance in **light-to-medium-duty environments**. The use of **304 Stainless Steel** not only ensures the product is highly **rust-resistant**, making it perfect for both **interior and exterior** use, but also delivers a contemporary, **low-maintenance** finish. For those seeking a **heavy-duty** aesthetic or a **high-quality** functional component, this **stainless steel continuous hinge** is an excellent investment. The 2040mm length offers the flexibility to be used as is for tall applications or easily cut to size for smaller, specific projects, offering a truly **customizable** fitting. Choose this **long-lasting**, **corrosion-proof**, and **easy-to-install** continuous hinge for a **professional-grade** result every time.
