

Locking Monkeytail Fastener – Right Hand – Black

Variant code: 33953

Our monkeytail fasteners offer our most traditional style, taking inspiration from original 18th century design.

- Designed to fit casement windows and match the monkeytail window stays in the range.
- Our handmade fasteners are forged from mild steel giving them unrivalled strength and a wealth of character.
- The product is handed and therefore care needs to be taken when choosing the correct hand. From the inside view, if your window is hinged on the right then a right-hand fastener is required.
- Includes a mortice plate and hook plate for different fitting options.
- The fastener has a locking mechanism by way of a grub screw.
- Supplied with matching SS wood screws.

Property	Value
