

## Locking Night-vent Monkeytail Fastener – Left Hand – Beeswax

**Variant code: 33267**

Our monkeytail fasteners offer our most traditional style, taking inspiration from original 18th century design. Designed to fit casement windows and match the monkeytail window stays in the range.

- The handle is night venting and can be locked in the open position as well as the closed position allowing some ventilation.
- The product is handed and therefore care needs to be taken when choosing the correct hand. From the inside view, if your window is hinged on the left then a left-hand fastener is required.
- The fastener has a locking mechanism by way of a grub screw.
- Suitable for use with weather-stripped windows.
- Supplied with matching SS wood screws.

Our beeswax finish is the most authentic finish for steel. After forging, the colours left in the steel range from blue to deep red ochre. To preserve these beautiful colours, our beeswax products are dipped into hot beeswax. This gives a subtle, matt richness to the metal and offers excellent protection when the products are fitted internally and properly maintained. An extremely natural finish and a far softer alternative to a black powder coated finish.

| Property            | Value      |
|---------------------|------------|
| Finish              | Beeswax    |
| Range               | Monkeytail |
| Overall Length (mm) | 157        |
| Handle Length (mm)  | 140        |
