

## Locking Shepherd's Crook Fastener – Left Hand – Pewter

**Variant code: 33710**

The shepherd's crook is a delicate and traditional design that is only achievable through the skills of our master blacksmiths.

Designed to fit casement windows and match the shepherd's crook window stays in the range.

- Our handmade fasteners are forged from mild steel giving them unrivalled strength and a wealth of character.
- The product is handed and therefore care needs to be taken when choosing the correct hand. From the inside view, if your window is hinged on the left then a left-hand fastener is required.
- Includes a mortice plate and hook plate for different fitting options.
- The fastener has a locking mechanism by way of a grub screw.
- Supplied with matching SS wood screws.

Property	Value
Finish	Pewter Patina
Range	Shepherd's Crook
Overall Length (mm)	133
Handle Length (mm)	106

Gallery

Technical drawing of the Shepherd's Crook Fastener. The drawing includes a front view showing a hook with dimensions 133 (height), 106 (width), and 17 (hook width). A side view shows dimensions 25 (hook width), 71 (hook height), 58 (hook depth), 114 (base height), and 4 (base width). Detail views show the mortice plate (20x77), hook plate (17x71), and the fastener assembly (17x71).

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
