

## Locking Shepherd's Crook Fastener – Right Hand – Beeswax

**Variant code: 33477**

The shepherd's crook is a delicate and traditional design that is only achievable through the skills of our master blacksmiths.

Designed to fit casement windows and match the shepherd's crook window stays in the range.

- Our handmade fasteners are forged from mild steel giving them unrivalled strength and a wealth of character.
- The product is handed and therefore care needs to be taken when choosing the correct hand. From the inside view, if your window is hinged on the right then a right-hand fastener is required.
- Includes a mortice plate and hook plate for different fitting options.
- The fastener has a locking mechanism by way of a grub screw.
- Supplied with matching SS wood screws.

Property	Value
Finish	Beeswax
Range	Shepherd's Crook
Overall Length (mm)	133
Handle Length (mm)	106

Gallery

Technical drawing of the Shepherd's Crook Fastener. The drawing includes a front view showing a hook with a 17mm wide top and a 106mm wide base. A side view shows a 25mm wide top and a 71mm high hook. Detail views show the mounting plate with a 20mm wide top and a 77mm high hook, and the hook plate with a 17mm wide top and a 71mm high hook. Dimensions are provided in millimeters.

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
