Locking Shepherd's Crook Fastener - Right Hand - Pewter

Variant code: 33709

The shepherd's crook is a delicate and traditional design that is only achievable through the skills of our master blacksmiths.

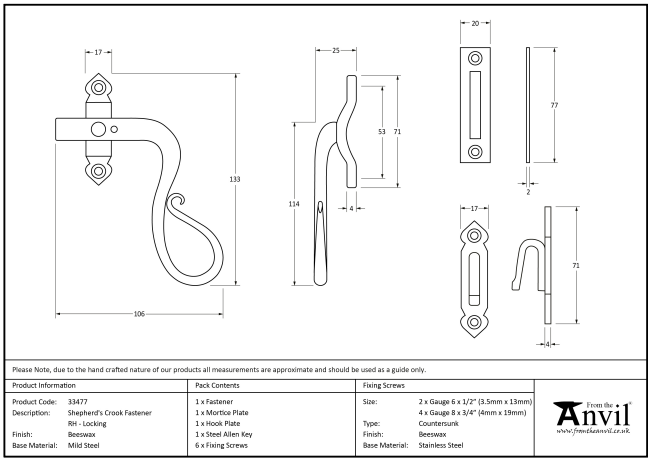

Designed to fit casement windows and match the shepherd's crook window stays in the range.

- Our handmade fasteners are forged from mild steel giving them unrivalled strength and a wealth of character.
- The product is handed and therefore care needs to be taken when choosing the correct hand. From the inside view, if your window is hinged on the right then a right-hand fastener is required.
- Includes a mortice plate and hook plate for different fitting options.
- The fastener has a locking mechanism by way of a grub screw.
- Supplied with matching SS wood screws.
