M5x40mm Espag Machine Screw - Each - Beeswax

Variant code: 91151

Replacement screws for espagnolette window handles.

Fits any standard espagnolette handle and can be cut down to a suitable size.

Sold in singles.

See the technical drawing of any product to see if these screws are suitable for what you need.

Our beeswax finish is the most authentic finish for steel. After forging, the colours left in the steel range from blue to deep red ochre. To preserve these beautiful colours, our beeswax products are dipped into hot beeswax. This gives a subtle, matt richness to the metal and offers excellent protection when the products are fitted internally and properly maintained. An extremely natural finish and a far softer alternative to a black powder coated finish.

Property	Value
Finish	Beeswax
