Magnetic Contactless Door Latch for 100kg Door - White

Variant code: BMC10100WH

Door Weight: 100KG Max Guarantee: 25 Years The magnetic contactless door latch is a â€˜state-of-the-artâ€™ â€˜Flush' latch.Â The magnetic,Â contactless door latch is designed to hold interior doors shut without the necessityÂ for a lever handle or protruding latch, being the perfect solution for flush or minimalistic design doors.Â Also an ideal solution for use in care facilities as an 'Anti-ligature' Latch where lever handles and standard latches are considered ligatureÂ points. Silent operation: The latch has no moving parts which enables the door to be opened andÂ closed in complete silence. Applications: This latch is particularly suitable for doors where high-end aesthetics with minimalisticÂ designsÂ or aÂ simple operation is a must.Â Â Sample locations include doors in retail changing rooms, bathrooms, steam rooms, saunaâ€™s, your ownÂ home, wardrobes, sliding doorsÂ & anywhere else that would benefit from a non protruding latch, such as hospitals or residential care homes. Â Installation: This latch isÂ suitable for installation on any timber door and frame. The latch can beÂ installed either vertically or horizontally. In both instances this should be as farÂ away from the hinged edge as possible. Benefits: Zero maintenance because there are no moving parts to wear out Door can be opened and closed without a lever handle Doors are simple to open and close Ideal for doors to walk-in closets or storerooms Perfect for keeping pivoting doors in their closed position Perfect for use with Flush Pull Handles Suitable for installation with double action spring hinges Can be used in some applications to hold doors open back against a wall. Can be painted or over veneered so it is totally out of sight.
