

## Medium Bean Thumb latch - Pewter

**Variant code: 33649**

Traditionally used on a ledge and braced door, a thumb latch set is a decorative door latch with a thumb shaped lever. When the thumb shaped lever is pressed down this operates a thumb bar which passes through the door, this lifts the latch bar on the opposite side causing it to open.

Our blacksmith thumb latches are hammered into shape from mild steel using the traditional manufacturing method of the same as all the other thumb latches we use in conjunction with a tee hinge on the door and a thumb bar on the inside of the door. Screws are supplied with the thumb bar.

Property	Value
Finish	Pewter Patina
Range	Bean
Overall Length (mm)	210
