Blum Metabox Single Extension - R9001 'K' Height - Cream - 400mm

Variant code: 320K400

Blum METABOX Drawer System - Single Extension K Height - Cream is a robust and practical steel drawer solution designed for consistent performance in everyday cabinetry. Manufactured by **Blum**, a globally recognised leader in cabinet hardware, the METABOX system combines durable materials with reliable runner technology to deliver smooth and dependable drawer operation.

This system features **single extension**, allowing controlled and stable drawer movement while providing practical access to contents. The **K height drawer sides** offer a medium-height profile, making it suitable for general storage applications where a balance between capacity and accessibility is required. Finished in **cream (R9001)**, the system provides a clean and neutral appearance that integrates easily into a wide range of cabinet designs.

Engineered for compatibility within the Blum system, METABOX components ensure straightforward installation and consistent functionality. The system is available in a range of **nominal lengths**, allowing cabinet manufacturers and installers to select the appropriate size to suit cabinet depth while maintaining uniform performance and fit.

Product Features

- **Single extension drawer system** for controlled access
- **K height steel drawer sides** for medium storage capacity
- Durable **cream (R9001) powder-coated finish**
- Smooth and stable drawer movement
- Compatible with **Blum METABOX system components**
- Available in **multiple nominal lengths**

Product Benefits

- Provides **reliable and consistent drawer operation**
- Offers **balanced storage capacity for everyday use**
- Ensures **durability in frequent-use environments**
- Maintains a **clean and professional cabinet appearance**
- Suitable for **various cabinet configurations**
- Enables **efficient installation and system integration**

Technical Characteristics

- **Steel drawer side construction** for strength and durability
- Compatible with **Blum METABOX runners and accessories**
- Designed for **single extension drawer operation**
- Suitable for **different cabinet depths depending on nominal length**
- Engineered for **smooth running and stable alignment**
- Designed for **integration within Blum cabinet systems**

Applications

This drawer system is used in **kitchen cabinetry, bedroom furniture, office storage and fitted joinery** where a reliable and cost-effective drawer solution is required. The K height design makes it suitable for **general-purpose drawers**, while the availability of different nominal lengths allows flexibility across various cabinet sizes. It is widely specified in both **residential and light commercial interiors**, delivering dependable performance and practical functionality.
