

Blum Metabox Single Extension – R9001 'M' Height – Cream – 400mm

Variant code: 320M400

Blum METABOX Drawer System – Single Extension M Height – Cream is a durable and efficient steel drawer solution designed for smooth and reliable everyday use in cabinetry. Manufactured by **Blum**, a globally recognised leader in cabinet hardware, the METABOX system combines robust construction with proven runner technology to deliver consistent and dependable drawer performance.

This system features **single extension**, allowing controlled and stable drawer movement while providing practical access to contents. The **M height drawer sides** offer a lower-profile design compared to higher variants, making it ideal for shallower drawers or applications where reduced drawer height is required. Finished in **cream (R9001)**, the system provides a clean and neutral appearance that integrates seamlessly into a wide range of cabinet styles.

Designed for full compatibility within the Blum system, METABOX components ensure straightforward installation and reliable long-term operation. The system is available in a range of **nominal lengths**, allowing cabinet manufacturers and installers to select the appropriate size to suit cabinet depth while maintaining consistent performance and alignment.

Product Features

- **Single extension drawer system** for controlled access
- **M height steel drawer sides** for low-profile applications
- Durable **cream (R9001) powder-coated finish**
- Smooth and stable drawer movement
- Compatible with **Blum METABOX system components**
- Available in **multiple nominal lengths**

Product Benefits

- Provides **reliable and consistent drawer operation**
- Ideal for **shallower drawers and compact storage**
- Ensures **durability for everyday cabinet use**
- Maintains a **clean and uniform cabinet appearance**
- Suitable for a **wide range of cabinet configurations**
- Enables **efficient installation and system integration**

Technical Characteristics

- **Steel drawer side construction** for strength and longevity
- Compatible with **Blum METABOX runners and accessories**
- Designed for **single extension drawer operation**
- Suitable for **various cabinet depths depending on nominal length**
- Engineered for **smooth running and stable alignment**
- Designed for **integration within Blum cabinet systems**

Applications

This drawer system is commonly used in **kitchen cabinetry, bedroom furniture, office storage and fitted joinery** where a reliable and cost-effective drawer solution is required. The M height design makes it particularly suitable for **shallow drawers, cutlery storage and compact cabinet applications**, while the availability of different nominal lengths allows flexibility across various cabinet sizes. It is widely specified in both **residential and light commercial interiors**, delivering consistent performance and practical

functionality.
