Blum Modul Mounting Plate - Cruciform Pre-Mounted System Screws - Nickel - 0mm

Variant code: 193L8100

Blum Modul Mounting Plate - Cruciform Pre-Mounted System Screws - Nickel is designed to provide secure and reliable hinge fixing within the Blum MODUL hinge system. Engineered for seamless compatibility with Blum MODUL hinges, this mounting plate ensures stable attachment and consistent door alignment across a wide range of cabinet constructions. Manufactured from durable steel with a protective **nickel-plated finish**, it delivers dependable long-term performance in residential and light commercial cabinetry.

The **cruciform mounting plate design** supports accurate screw positioning and strong mechanical retention to the cabinet side panel. Supplied with **pre-mounted system screws**, it simplifies installation by reducing preparation time and ensuring consistent fixing during cabinet assembly. When correctly paired with the appropriate MODUL hinge, it contributes to precise hinge geometry and smooth door operation.

The **0mm height configuration** provides a neutral hinge offset between the cabinet side and hinge arm. Selecting the correct plate height is essential for accurate overlay calculation, and this 0mm version is suitable where no additional projection is required to achieve proper door alignment.

Product Features

- Designed for **Blum MODUL hinge systems**
- **Cruciform mounting plate configuration**
- Supplied with **pre-mounted system screws**
- **0mm height configuration**
- Durable **nickel-plated steel finish**
- Secure screw fixing to cabinet side panel
- Engineered for precise door alignment

Product Benefits

- Ensures stable and secure hinge

Email: info@swshardware.com

mounting
- Reduces installation time with pre-mounted screws
- Supports accurate door positioning and consistent reveals
- Provides correct hinge offset for overlay calculations
- Integrates seamlessly within the Blum MODUL hinge platform
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- **0mm plate height** determines final hinge positioning
- Requires accurate cabinet side panel preparation
- Designed for use with compatible **Blum MODUL hinges**
- Steel construction with protective nickel finish
- Correct hinge and plate pairing ensures optimal door performance

Applications

This mounting plate is intended for cabinet installations utilising the Blum MODUL hinge system where a **0mm hinge offset** is required. It is commonly specified in overlay cabinet constructions where precise door projection and alignment are essential. Suitable for kitchens, bedrooms, storage units and bespoke fitted furniture, it provides reliable hinge mounting and consistent performance in both residential and light commercial environments.

Property	Value
Finish	Nickel
Mounting Plate Type	Cruciform
Fixing Type	Screw-on
