Blum Modul Mounting Plate - Cruciform Height Adjustment - Nickel - 3mm

Variant code: 195H7130

Blum Modul Mounting Plate - Cruciform Height Adjustment - Nickel is engineered to provide secure and precisely adjustable hinge fixing within the Blum MODUL hinge system. Designed for seamless integration with compatible Blum MODUL hinges, this mounting plate ensures stable attachment and accurate door alignment across a wide range of cabinet constructions.
Manufactured from durable steel with a protective **nickel-plated finish**, it delivers reliable long-term performance in residential and light commercial cabinetry.

The **cruciform mounting plate design** supports secure screw fixing to the cabinet side panel while maintaining consistent hinge geometry. Featuring an integrated **height adjustment mechanism**, the plate allows efficient vertical correction during installation, enabling accurate door positioning and consistent reveals across the cabinet run.

The **0mm height configuration** provides a neutral hinge offset between the cabinet side and hinge arm. When paired with the correct MODUL hinge type, this ensures accurate overlay calculation, proper door projection and smooth, dependable hinge operation.

Product Features

- Designed for **Blum MODUL hinge systems**
- **Cruciform mounting plate configuration**
- Integrated **height adjustment mechanism**
- **0mm height configuration**
- Durable **nickel-plated steel finish**
- Secure screw fixing to cabinet side panel
- Engineered for precise door alignment

Product Benefits

- Ensures stable and secure hinge mounting
- Allows efficient vertical adjustment during installation
- Supports accurate door positioning and

consistent reveals
- Provides correct hinge offset for overlay calculations
- Integrates seamlessly within the Blum MODUL hinge platform
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- **0mm plate height** determines final hinge positioning
- Height adjustment enables vertical alignment correction
- Requires accurate cabinet side panel preparation
- Steel construction with protective nickel finish
- Designed for use with compatible **Blum MODUL hinges**
- Correct hinge and plate pairing ensures optimal door performance

Applications

This mounting plate is intended for cabinet installations utilising the Blum MODUL hinge system where a **0mm hinge offset** is required. Commonly specified in overlay cabinet constructions, it supports precise door projection and alignment. Suitable for kitchens, bedrooms, storage units and bespoke fitted furniture, it provides reliable hinge mounting and consistent performance in both residential and light commercial environments.

Property	Value
Finish	Nickel
Mounting Plate Height (mm)	3
Mounting Plate Type	Cruciform
Fixing Type	Screw-on
