Blum Modul Mounting Plate - Cruciform Screw-on - Nickel - 0mm

Variant code: 193L6100

Blum Modul Mounting Plate - Cruciform Screw-on - Nickel is designed to provide secure and precisely aligned hinge fixing within the Blum MODUL hinge system. Manufactured by Blum, a globally recognised specialist in precision cabinet hardware, this mounting plate forms a key structural component of the MODUL slide-on hinge assembly, ensuring stable attachment and accurate door positioning across a wide range of cabinet constructions.

The **cruciform mounting plate configuration** provides reliable screw positioning and strong mechanical retention to the cabinet side panel. The **screw-on fixing system** ensures secure attachment when installed into correctly prepared cabinet sides, supporting long-term structural integrity. The selectable **plate height configuration** forms part of the hinge offset calculation and determines the final door position and reveal. Selecting the correct height enables precise overlay alignment and consistent door gaps when paired with the appropriate Blum MODUL hinge.

Finished in durable **nickel plating**, the mounting plate offers a clean and neutral appearance suitable for most cabinet interiors while maintaining corrosion resistance. Designed specifically for use with **Blum MODUL slide-on hinges**, it allows controlled hinge positioning and dependable long-term performance within the cabinet system.

Product Features

- Designed for **Blum MODUL hinge systems**
- **Cruciform mounting plate configuration**
- **Screw-on fixing system**
- Selectable **plate height configuration**
- Durable **nickel-plated steel finish**

- Compatible with Blum MODUL slide-on hinges
- Engineered for stable cabinet side panel fixing

Product Benefits

- Ensures secure and stable hinge mounting
- Supports accurate door positioning and consistent reveals
- Allows correct overlay calculation through height selection
- Provides dependable mechanical retention
- Integrates seamlessly within the Blum MODUL hinge platform
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- Plate height determines hinge offset and final door position
- Screw-on fixing requires accurate cabinet side preparation
- Designed for use with compatible Blum MODUL hinges
- Steel construction with protective nickel finish
- Supports precise hinge positioning within the MODUL system
- Correct hinge and plate pairing ensures optimal door performance

Applications

This mounting plate is intended for cabinet installations requiring secure **screw-on fixing** within the Blum MODUL hinge system. The selectable height configuration makes it suitable for overlay constructions where precise hinge
