Blum Movento Locking Device - Side Adjustment - Left & Right Hand

Variant code: T51.7601

Movento Locking Device with Side Adjustment - Precision Drawer Runner Hardware for Professionals

Long Description:

Ensure secure and reliable drawer functionality in your high-quality furniture and cabinetry projects with the **Blum Movento Locking Device with Side Adjustment**. Designed for seamless integration with Blum Movento runner systems, this essential hardware component provides a robust locking mechanism to prevent accidental drawer rollout, crucial for both residential and commercial applications.

This versatile locking device is available for **both left-hand and right-hand drawer installations**, offering flexibility in your design and assembly processes. The integrated **side adjustment feature** allows for precise drawer front alignment, ensuring a professional and aesthetically pleasing finish. This eliminates the need for tedious manual adjustments and streamlines your workflow.

Key Features & Benefits for Your Business:

- **Enhanced Drawer Security:** Provides a reliable locking mechanism, preventing unwanted drawer movement during transport or use.
- **Precise Side Adjustment:** Simplifies drawer front alignment, saving valuable installation time and ensuring a perfect fit.
- **Left & Right Hand Compatibility:** Offers universal application, reducing the need for multiple SKUs and simplifying inventory management.
- **Durable Blum Quality:** Manufactured to Blum's renowned standards for long-lasting performance and reliability, minimising callbacks and ensuring customer satisfaction.
- **Seamless Movento Integration:** Specifically designed for use with Blum Movento drawer runner systems, guaranteeing optimal functionality and

compatibility.
- **Streamlined Installation:** User-friendly design facilitates quick and efficient installation, improving production efficiency.
- **Professional Finish:** Contributes to a high-quality and professional appearance for your finished furniture and cabinetry.
- **Reduced Installation Errors:** The side adjustment feature minimises the risk of misalignment, leading to fewer errors and rework.
- **Long-Term Cost Savings:** Durable construction and reliable performance reduce the need for replacements and repairs.

Ideal for:

- **Cabinet Makers**
- **Furniture Manufacturers**
- **Kitchen Installers**
- **Interior Designers**
- **Shop Fitters**
- **Joinery Businesses**
- **Commercial Furniture Suppliers**

Technical Specifications:

- **Product Type:** Drawer Locking Device
- **System Compatibility:** Blum Movento Drawer Runner System
- **Adjustment:** Integrated Side Adjustment
- **Handing:** Left Hand and Right Hand Options Available
- **Material:** Durable, high-quality materials
