Blum Movento Runner - Side Mount Full Extension BLUMOTION - 70KG - 520mm

Variant code: 766H5200S

Blum MOVENTO Runner - Side Mount Full Extension BLUMOTION - 70kg is engineered to deliver exceptionally smooth, stable and precise drawer movement in demanding cabinetry applications. Developed by **Blum**, a globally recognised specialist in premium cabinet hardware systems, the MOVENTO runner platform combines high load capacity with refined motion control to support modern furniture where durability, comfort and alignment precision are essential.

The runner features **full extension functionality**, allowing drawers to open completely so the entire drawer interior remains visible and accessible. Integrated **BLUMOTION soft-close technology** ensures drawers close smoothly and quietly, preventing slamming while protecting cabinet components from wear during everyday use. This controlled closing action improves both user comfort and long-term cabinet performance.

The **side mount runner design** provides strong lateral stability and reliable drawer guidance, making it particularly suitable for wider or heavily loaded drawers. The MOVENTO system also incorporates **four-dimensional adjustment capability**, allowing precise vertical, lateral, depth and tilt positioning of the drawer front. This enables installers to achieve accurate alignment and consistent reveal gaps across multiple drawers.

With a robust **70kg load capacity**, the runner is suitable for heavy-duty storage applications while maintaining the smooth movement expected from Blum hardware. The system is available in a range of **nominal lengths**, allowing it to suit various cabinet depths while maintaining consistent running performance and installation flexibility.

Product Features

- **Side mount drawer runner system**
- **Full extension movement** for complete drawer access
- Integrated **BLUMOTION soft-close**

technology
- **70kg load capacity** for heavy-duty drawer applications
- **Four-dimensional adjustment** for precise drawer alignment
- Available in a range of **nominal lengths** to suit cabinet depths

Product Benefits

- Provides smooth and stable drawer movement under heavy loads
- Ensures quiet and controlled soft closing
- Improves visibility and access to drawer contents
- Supports accurate drawer front alignment
- Enhances durability in demanding cabinet installations
- Suitable for residential and light commercial furniture

Technical Characteristics

- Side-mounted runner configuration
- Full extension drawer travel
- Integrated BLUMOTION damping system
- Maximum load capacity: **70kg**
- Four-dimensional adjustment capability
- Available in multiple nominal lengths

Applications

The Blum MOVENTO side mount runner is used in premium kitchen cabinetry, storage furniture and bespoke joinery where high load capacity and smooth drawer movement are required. Its full extension design allows unrestricted access to drawer contents, while the integrated BLUMOTION soft-close mechanism ensures quiet and controlled closing. Available in multiple nominal lengths, the system can be specified for a wide range of cabinet depths and heavy-duty drawer configurations.

Property	Value
Weight Capacity (kg)	70
