Blum Movento Runner - Base Mount Full Extension BLUMOTION - 40KG - 400mm

Variant code: 760H4000SU

Blum Movento Runner - Base Mount Full Extension BLUMOTION - 40kg is designed to deliver precise and exceptionally smooth drawer movement within premium cabinet installations. Manufactured by **Blum**, a globally recognised specialist in advanced cabinet hardware systems, the MOVENTO runner platform combines high load performance with refined motion control, supporting modern furniture design where durability, comfort and precision alignment are essential.

The runner features **full extension movement**, allowing the drawer to open completely so the entire drawer interior remains visible and accessible. Integrated **BLUMOTION soft-close technology** ensures controlled and silent closing, preventing drawers from slamming while protecting cabinet components from impact during everyday use. This creates a refined and comfortable user experience across a wide range of furniture applications.

The **base-mounted runner design** supports stable drawer guidance while maintaining a concealed installation beneath the drawer box, helping achieve clean furniture aesthetics. The MOVENTO system also incorporates **four-dimensional adjustment**, enabling precise vertical, lateral, depth and tilt alignment of the drawer front. This allows cabinet installers to achieve consistent reveals and accurate positioning across multiple drawers within a cabinet installation.

Engineered to support drawers with loads up to **40kg**, the runner provides dependable stability for demanding storage applications. The system is available in a range of **nominal lengths**, allowing it to accommodate different cabinet depths while maintaining the precise motion and reliability associated with Blum drawer systems.

Product Features

- **Base mount concealed runner system**
- **Full extension drawer movement** for

complete drawer access
- Integrated **BLUMOTION soft-close technology**
- **40kg load capacity** for demanding drawer applications
- **Four-dimensional adjustment** for precise drawer alignment
- Available in multiple **nominal lengths** to suit cabinet depths

Product Benefits

- Provides exceptionally smooth and controlled drawer operation
- Ensures quiet and comfortable soft closing
- Improves accessibility to drawer contents
- Supports clean furniture aesthetics with concealed runner installation
- Allows precise drawer front alignment for consistent cabinet reveals
- Suitable for demanding residential and commercial furniture

Technical Characteristics

- Base-mounted concealed drawer runner system
- Full extension runner design
- Integrated BLUMOTION damping mechanism
- Compatible with Blum drawer systems
- Four-dimensional adjustment capability
- Available in a range of nominal lengths

Applications

The Blum MOVENTO runner is widely used in premium kitchen cabinetry, wardrobes, bathroom furniture and bespoke joinery where smooth drawer operation and precise alignment are required. The concealed base-mount design supports modern furniture aesthetics, while the full extension travel and integrated soft-close mechanism ensure comfortable everyday use. With multiple nominal length options available, the system can be specified for a wide range of cabinet depths and drawer configurations.
