Blum Movento Runner - Side Mount Full Extension BLUMOTION - 40KG - 250mm

Variant code: 760H2500S

Blum Movento Runner - Side Mount Full Extension BLUMOTION - 40KG is designed to deliver precise, smooth and reliable drawer movement within high-quality cabinetry. Manufactured by **Blum**, a globally recognised specialist in premium cabinet hardware, the MOVENTO runner system is designed to provide exceptional running performance, stability and durability for modern drawer installations.

Featuring **full extension functionality**, the runner allows the drawer to open completely, providing unrestricted access to the entire drawer interior. This makes it particularly suitable for applications where clear visibility and easy access to stored contents are important. The integrated **BLUMOTION soft-close technology** ensures that drawers close smoothly and silently, preventing slamming while improving user comfort and protecting cabinet components.

The MOVENTO system is designed with **four-dimensional adjustment capability**, allowing precise vertical, lateral, depth and tilt adjustment. This enables accurate alignment of drawer fronts and consistent reveal lines across cabinetry installations. The side-mounted runner design also delivers excellent load stability while supporting drawers carrying up to **40kg**, making it suitable for demanding residential and light commercial applications.

Engineered for compatibility with Blum drawer systems, the runner integrates with standard cabinet constructions and is available in a range of **nominal lengths** to suit different cabinet depths. Its robust steel construction ensures dependable long-term performance while maintaining the smooth and controlled movement expected from Blum drawer hardware.

Product Features

- **Full extension drawer runner** for complete drawer access
- Integrated **BLUMOTION soft-close technology**

- **Side mount runner design** for stable drawer support
- **40kg load capacity** for demanding drawer applications
- **Four-dimensional adjustment** for precise drawer alignment
- Available in a range of **nominal lengths** to suit cabinet depths

Product Benefits

- Provides smooth and controlled drawer operation
- Ensures quiet and comfortable drawer closing
- Improves access and visibility inside drawers
- Supports consistent alignment of drawer fronts
- Enhances overall cabinet usability and user experience
- Suitable for demanding residential and light commercial furniture

Technical Characteristics

- Side-mounted runner system
- Full extension drawer movement
- Integrated BLUMOTION soft-close mechanism
- Designed for compatibility with Blum drawer systems
- Four-dimensional drawer front adjustment
- Available in multiple nominal lengths

Applications

The Blum MOVENTO runner system is commonly used in high-quality kitchen cabinetry, wardrobes, bathroom furniture and bespoke joinery projects. Its full extension movement and integrated soft-close mechanism make it particularly suitable for drawers requiring smooth operation, quiet closing and reliable load support. Available in multiple nominal lengths, the runner adapts easily to different cabinet depths while maintaining the precise movement and durability expected in premium cabinet hardware installations.
