

## Multi-Purpose Grommet, 283 x 68mm External, 257 x 42mm Internal – Satin Stainless Steel

**Variant code: CGF26SN**

**Multi-Purpose Grommet** is a premium recessed opening trim designed to provide a neat, durable and corrosion-resistant finish for furniture, worktops and waste collection applications. Manufactured in a **satin stainless steel finish**, this rectangular grommet features an **external size of 283 x 68mm** with an **internal opening of 257 x 42mm**, making it ideal for magazine and newspaper waste boxes, cable management and other general-purpose access openings.

Constructed from corrosion-resistant stainless steel, the grommet offers excellent durability and long-term performance in commercial, hospitality and residential environments. Its smooth satin finish provides a modern architectural appearance while protecting the edges of cut-outs from damage and wear. The recessed design creates a clean, professional installation that integrates seamlessly into desks, counters, cabinetry and work surfaces.

Designed for architects, cabinet makers and commercial fit-out professionals, the Sugatsune Multi-Purpose Grommet delivers a practical and attractive finishing solution for furniture and interior applications requiring a robust access or waste opening.

---
