

Non-Magnetic Touch Latch – 3kg Retaining Force – Black

Variant code: MC-28

Non-Magnetic Touch Latch is a compact **push-to-open and push-to-close cabinet latch** designed to provide a clean, handle-free solution for modern furniture and cabinetry. Offering a **3kg retaining force**, it securely holds cabinet doors closed without the use of magnets, making it ideal for applications where magnetic components are unsuitable.

The simple touch-operated mechanism allows the door to be opened with a light push, eliminating the need for handles or knobs. To close, gently press the door until the latch arm engages with the counter plate, securely retaining the door with minimal effort. The non-magnetic design provides smooth, reliable operation while maintaining a sleek, minimalist appearance.

Manufactured from durable engineering-grade materials, the latch is built for long-lasting everyday performance and is suitable for a wide range of residential, commercial and specialist furniture applications where clean lines and convenient access are required.

Product Features

- Non-magnetic touch latch
- Push-to-open and push-to-close operation
- **3kg retaining force**
- No handles or knobs required
- Includes latch arm and counter plate
- Smooth mechanical latching action
- Compact, low-profile design
- Durable engineering-grade construction
- Genuine Sugatsune hardware

Product Benefits

- Creates a clean, handle-free cabinet appearance
- Opens and closes with a simple light push
- Securely retains doors without magnetic components
- Reduces visible hardware for modern furniture designs
- Reliable, low-maintenance operation

- Suitable for frequent everyday use

Technical Characteristics

- **Product Type:** Non-Magnetic Touch Latch
- **Brand:** Sugatsune
- **Retaining Force:** 3kg
- **Operation:** Push-to-Open / Push-to-Close
- **Latch Type:** Mechanical (Non-Magnetic)
- **Construction:** Engineering-Grade Polymer and Metal Components
- **Includes:** Touch Latch and Counter Plate
- **Application:** Handle-Free Cabinet Door Latching

Applications

Non-Magnetic Touch Latch is ideal for **kitchen cabinets, wardrobes, office furniture, display cabinets, retail fixtures, caravans, motorhomes, marine cabinetry and bespoke furniture.** Designed for handle-free cabinet doors, it provides a secure **3kg mechanical retaining force** with smooth push-to-open and push-to-close operation, making it an excellent choice for contemporary residential and commercial interiors.
