

Oak Box Lock & Octagonal Knob Set – Black

Variant code: 33005

Rim locks are fitted to the surface of the door rather than being morticed in, along with a surface mounted keep that should be fitted to the door frame.

- Made from responsibly resourced, quality unstained English Oak and contains a British Standard 5 Lever lock which offers excellent security and peace of mind.
- Product is reversible so can be used on either the left or right hand side of your door.
- Supplied as a complete set with knobs, roses, escutcheons and straps.
- Maximum door thickness: 44mm. Thicker doors can be accommodated but you will need to contact us for an extra long key and spindle (chargeable service).
- All our rim locks are KA.
- Supplied with matching SS wood screws.
