SWS HARDWARE

24v IP67 LED Dual Bendable Seamless Neon Tape – 10mm x10mm x 1920mm 15.3w – Neutral White c/w 2m JB Input Lead

Variant code: LFS248I0NW.1920J

Dual Bendable 24V IP67 LED Neon Tape

Illuminate your space with our **B24v IP67 Dual Bendable Seamless LED Neon Tape**. This versatile and durable lighting solution offers a seamless glow and is engineered for both indoor and outdoor applications. Perfect for creating custom lighting designs, this neon tape provides a striking and uniform light output without visible spotting.

Key Features

- **Dual Bendable Design**: The unique side and top bending capability allows for effortless installation around corners, curves, and complex shapes, giving you unprecedented creative freedom.

- **Seamless & Uniform Light**: Featuring advanced technology, this tape provides a smooth, continuous line of **Neutral White** light, eliminating hot spots and creating a professional, high-end finish.

- **Built to Last**: Constructed from high-quality silicone, the tape is **IP67 rated**, offering superior protection against water, dust, and UV exposure. This ensures long-term performance and reliability in any environment.

- **Energy Efficient**: Operating at a safe 24V, the tape consumes only **15.3w**, providing powerful illumination while keeping energy costs low.

- **Easy to Install**: Comes complete with a **2-meter JB Input Lead**, simplifying the connection process and getting your project up and running quickly.

Technical Specifications

SWS
HARDWARE

- **Product Code**: B24v-IP67-LED-Neon-Tape

- **Voltage**: 24V DC

- **Wattage**: 15.3w

- **Color Temperature**: Neutral White (4000K-4500K)

- **Dimensions**: 10mm (W) x 10mm (H) x 1920mm (L)

- **Ingress Protection**: IP67 (Waterproof & Dustproof)

- **Bending Direction**: Dual (Top & Side)

- **Connector**: 2m Junction Box (JB) Input Lead included

- **Material**: High-grade Silicone
