

24v LED Dual Bendable Seamless Neon Tape - 10mm x10mm x 4600mm - 36.8w -Warm White c/w 2m JB Input Lead

Variant code: LFS24810WW,4600J

Introducing the **24V LED Dual Bendable Seamless Neon Tape!** This innovative lighting solution offers unparalleled flexibility and a sleek, modern aesthetic, making it perfect for a wide range of applications. With its seamless design and warm white glow, it creates a cosy, inviting atmosphere.

Key Features

- Dual-Direction Bending: Unlike traditional single-bend neon ropes, our product bends on both the horizontal and vertical axes, providing ultimate design freedom. This unique feature allows you to create intricate shapes and curves effortlessly.
- Seamless Light Output: The advanced silicone diffusion material ensures a consistent, dot-free light emission. This creates a smooth, professional-looking neon glow without any visible LED hotspots.
- High-Quality & Durable: Constructed from high-quality silicone, this LED neon flex is built to last. It is weather-resistant (IP67 rated), making it suitable for both indoor and outdoor use. The tape is also UV-resistant and won't yellow or crack over time.
- Energy-Efficient & Safe: Operating at a low voltage of 24V DC, this LED neon tape is highly energy-efficient, consuming only 36.8W for the entire 4.6m length. The low voltage also makes it safe to handle and install.
- Easy to Install: The flexible design and included 2m J-box input lead make installation a breeze. The 10mm x 10mm profile is slim and discreet, allowing for versatile placement in tight spaces.

Product Specifications

• Product Name: 24V LED Dual Bendable

Seamless Neon Tape

• Dimensions: 10mm x 10mm x 4600mm

• Power Consumption: 36.8W (8W/m)

• Color: Warm White (2700K - 3000K)

• Voltage: 24V DC

• Included: 2m J-box Input Lead

• IP Rating: IP67 (Suitable for indoor and outdoor use)
