

Accuride DZ5417 Drawer Runners – Load = 94KG – Length = 600mm – Hold In

Variant code: DZ5417-0060

Accuride DZ5417 Drawer Runners – 600mm Length, 94kg Load Capacity with Hold-In – Smooth, Secure, and Built to Last

Experience unparalleled performance and reliability with the Accuride DZ5417 Drawer Runners. Engineered for demanding applications, these heavy-duty slides offer a robust 94kg load capacity, a convenient 600mm length, and an innovative "Hold In" feature, making them the ultimate choice for professional-grade storage solutions.

Key Features & Benefits:

- **Exceptional Load Capacity (94kg):** Designed to handle substantial weight with ease, the DZ5417 runners are ideal for heavy-duty drawers in industrial settings, workshops, commercial kitchens, medical facilities, and high-end residential cabinetry. This impressive load rating ensures smooth operation even under significant stress, providing long-lasting durability and peace of mind.
- **Optimal 600mm Length:** This versatile length provides ample extension for a wide range of drawer depths, maximising accessibility to contents. Perfect for tool storage, kitchen pantries, laboratory equipment, and various commercial installations.
- **Integrated "Hold In" Feature:** The intelligent "Hold In" mechanism ensures drawers remain securely closed when not in use. This prevents accidental opening during transit or movement, enhancing safety and maintaining a tidy appearance. It's particularly beneficial in mobile applications or environments where vibrations are present.
- **Smooth & Quiet Operation:** Accuride's renowned precision engineering

guarantees incredibly smooth and virtually silent drawer movement. This premium glide action enhances user experience and contributes to a professional, high-quality feel.

- **Full Extension Access:** Enjoy complete access to the entire contents of your drawer with the full extension capability of these runners. No more struggling to reach items at the back – everything is easily visible and accessible.
- **Robust Steel Construction:** Manufactured from high-grade steel, the DZ5417 runners are built to withstand rigorous daily use. Their inherent strength provides exceptional resistance to wear, tear, and corrosion, ensuring a prolonged service life.
- **Easy Installation:** Designed for straightforward side mounting, these drawer runners come with pre-drilled holes for quick and efficient installation, saving you valuable time and effort.
- **Versatile Applications:** From custom furniture and shop fittings to industrial machinery and specialised enclosures, the Accuride DZ5417 runners are the preferred choice for professionals seeking reliable and high-performance drawer solutions.

Invest in the Accuride DZ5417 Drawer Runners today and elevate the functionality, security, and longevity of your drawer systems. Experience the Accuride difference – where precision meets unparalleled performance
