

Accuride DZ5417 Drawer Runners – Length = 550mm – Load = 100KG – Hold In

Variant code: DZ5417-0055

Accuride DZ5417 Heavy-Duty Drawer Runners – 550mm Length, 100kg Load, Hold-In Feature

Discover unparalleled strength, smooth operation, and secure closure with the Accuride DZ5417 Heavy-Duty Drawer Runners. Engineered for demanding applications, these 550mm full-extension slides offer an impressive 100kg load capacity, making them the ideal choice for professional-grade storage solutions, industrial equipment, and high-traffic environments.

Key Features & Benefits:

- **Exceptional 100kg Load Capacity:** Built to handle significant weight, the DZ5417 is perfect for storing heavy tools, machinery components, bulk supplies, or large documents without compromising performance.
- **Smooth Full-Extension Movement:** Experience effortless access to the entire contents of your drawer. The full-extension design allows the drawer to open completely, maximising accessibility and organisation.
- **Reliable "Hold-In" Feature:** The integrated "Hold-In" mechanism securely retains the drawer in its closed position, preventing unwanted opening during movement or on inclines. This crucial feature ensures safety and stability in mobile applications or when vibration is a concern.
- **Precision-Engineered for Durability:** Constructed from robust steel, these Accuride slides are designed for long-lasting performance and consistent reliability, even under continuous heavy use.
- **Versatile 550mm Length:** This popular

length provides ample storage space for a wide range of applications, from workshop cabinets to commercial furniture and specialised equipment.

- **Easy Installation:** Featuring standard mounting patterns, the DZ5417 runners are designed for straightforward integration into your existing or new drawer systems.
- **Corrosion Resistant Finish:** A durable finish protects against rust and wear, ensuring the longevity of the runners in various environments.

Ideal For:

- **Heavy-duty workshop drawers and toolboxes**
- **Industrial machinery and equipment access panels**
- **Commercial kitchen cabinetry and storage**
- **Medical and laboratory furniture**
- **Vehicle storage systems and campervan conversions**
- **Any application requiring robust, reliable, and secure drawer movement.**

Upgrade your drawer systems with the Accuride DZ5417 Heavy-Duty Drawer Runners and experience the difference that superior engineering and robust design can make. Invest in quality that lasts.
