Acoustic - Fire & Smoke Seal (15mm W x 4mm D x 3000mm L) - Light Brown

Variant code: LP1504.AS.3000.LB

The product is an Acoustic - Fire & Smoke Seal in a light brown colour. It measures 15mm in width, 4mm in depth, and 3000mm in length. It's designed for sound insulation, fire protection, and smoke containment.

15mm x 4mm Light Brown Acoustic, Fire & Smoke Seal

This multi-purpose seal offers exceptional protection and a seamless finish for a wide range of door and window applications. Designed to meet stringent safety and performance standards, our **15mm W x 4mm D x 3000mm L** seal provides a reliable barrier against noise, fire, and smoke. The versatile light brown colour blends discreetly with most timber and painted finishes, ensuring a professional and clean aesthetic.

Key Features & Benefits

- **Acoustic Insulation:** Significantly reduces noise transmission, creating quieter and more comfortable environments. Ideal for internal doors in offices, schools, hotels, and residential buildings.
- **Fire & Smoke Protection:** Constructed with intumescent material, the seal expands under heat, effectively sealing the gap between the door and frame to prevent the spread of fire and smoke for up to **30 minutes**.
- **Durable & Flexible:** Made from a high-quality, flexible material that is both robust and easy to install. It maintains its integrity over time, resisting wear and tear from frequent use.
- **Aesthetic Appeal:** The light brown finish is subtle and professional, complementing a variety of wood tones and painted door frames.
- **Easy Installation:** Features a self-adhesive backing for a quick and mess-free application. No special tools are required, making it perfect for both professionals and DIY enthusiasts.
