Material	High-quality, wear-resistant nylon/steel
Finish	Orion Grey / Terra Black / Silk White / Tennessee Walnut
Configuration	Multiple compartments for cutlery and utensils

Key Benefits & Features

- **Custom Fit:** Engineered to sit perfectly within 300mm wide drawers, ensuring no sliding or "rattle" when opening and closing.
- **Soft-Touch Coating:** The interior features a sophisticated finish that protects your expensive silverware from scratches and reduces noise.
- **Flexible Layout:** While the frame is fixed, the internal dividers can be adjusted to accommodate different utensil lengths
- **Durable Design:** Built to withstand the rigours of a busy kitchen, the materials

are easy to wipe clean and resistant to staining.

- **Seamless Integration:** The slim-walled design maximises internal storage space without adding unnecessary bulk.

Pro-Tips for the Perfect Setup

- **The "Silent" Upgrade:** Pair this insert with LEGRABOX drawers featuring **BLUMOTION** soft-close technology for a truly premium, silent kitchen experience.
- **Mix and Match:** If you have a wider drawer (e.g., 600mm or 900mm), you can combine this 300mm insert with other AMBIA-LINE frames or knife blocks for a modular, custom look.
- **Check Your Length:** Always verify your **Nominal Length (NL)**. This specific model is built for 500mm runners; using it in shorter or longer drawers will leave gaps or simply won't fit.

Frequently Asked Questions (FAQ)

Does this insert work with Blum TANDEMBOX drawers?

No, the AMBIA-LINE series is specifically designed for the straight-walled **LEGRABOX** system. For TANDEMBOX (curved sides), you should look for the **ORGA-LINE** range.

Is the cutlery insert dishwasher safe?

We recommend cleaning with a damp cloth and mild detergent. While the materials are robust, the high heat and harsh chemicals of a dishwasher may degrade the soft-touch finish over time.

Can I adjust the size of the individual compartments?

Yes! The cross-dividers are adjustable, allowing you to customise the sections to fit oversized serving spoons or specific cutlery sets.

Some quick searched questions:

- **Q:** What is the best cutlery tray for Blum LEGRABOX 500mm?

- **S:** The **Blum AMBIA-LINE 300mm insert** is the top-rated choice for 500mm NL drawers due to its precision fit and Orion Grey finish.
- **Q:** How do I organise a 300mm wide kitchen drawer?
- **S:** Use a **modular frame system** like AMBIA-LINE to maximise vertical space and keep utensils separated by type.
- **Q:** Where can I buy genuine Blum drawer dividers?
- **S:** Ensure you purchase from authorised retailers to guarantee the **genuine Blum lifetime warranty** and high-grade nylon construction.
