AS Acoustic - Fire & Smoke Single Seal (20mm W x 4mm D x 3000mm L) - Light Brown

Variant code: LP2004.AS.3000.LB

Enhance your building's safety and acoustic performance with the AS Acoustic - Fire & Smoke Single Seal in a light brown finish. This high-quality, multifunctional sealing strip is engineered to provide superior protection against fire and smoke, while also significantly improving sound insulation. It's an ideal choice for residential, commercial, and industrial applications where safety, privacy, and noise reduction are paramount.

Key Features & Benefits

This fire and smoke seal is not just about protection; it's about providing a comprehensive solution for your door and window frames.

- **Superior Fire & Smoke Protection:** The seal is made from intumescent material, which expands under heat to create a tight barrier against the passage of flames and smoke. This crucial feature helps to contain fires, protecting lives and property.
- **Excellent Acoustic Insulation:** Designed with soundproofing in mind, the 4mm deep seal effectively reduces sound transmission, creating quieter and more comfortable environments. It's a key component in achieving a peaceful and private interior.
- **Durable & Long-Lasting:** Constructed from a robust, flexible polymer, this seal withstands daily wear and tear, maintaining its integrity and performance over time. It's resistant to compression, ensuring a consistent and reliable seal.
- **Easy & Quick Installation:** The seal comes with a strong self-adhesive backing, making installation simple and mess-free. Just peel and stick to the door or window frame for a secure fit. The 3000mm length can be easily cut to size, ensuring a perfect fit for any standard door or window.
- **Aesthetically Pleasing:** The light brown colour blends seamlessly with a wide
