

ASEC 100 1 Lever Straight Cupboard Lock – 16mm Backset x Case Dim 64mm H x 32mm W – Satin Brass finish

Variant code: AS6524

The ASEC 100 1 Lever Straight Cupboard Lock is a durable and reliable locking solution designed for joiners, carpenters, and various businesses. Its satin brass finish offers an attractive, classic look, and its compact size makes it suitable for a wide range of applications, including cabinets, cupboards, and small doors.

This **ASEC 100 1 Lever Straight Cupboard Lock** is a robust and elegant security solution for all your joinery and carpentry needs. With a **16mm backset** and **64mm x 32mm case dimensions**, it's the perfect choice for securing small doors, drawers, and cupboards. The attractive **satin brass finish** not only provides a high-end look but also offers a durable, long-lasting surface that resists corrosion and wear.

The **single-lever mechanism** provides a simple yet effective locking action, making it easy to use for both residential and commercial applications. The straight-plate design ensures a **clean, flush fit** on any surface, enhancing the overall aesthetic of your furniture or cabinetry.

Each lock comes supplied with two keys, and its straightforward installation process makes it a preferred choice for professionals seeking efficiency and reliability. The lock's solid construction guarantees a long service life, making it a valuable addition to any project.

Key Features & Benefits

- **Durable Satin Brass Finish:** Provides a stylish, professional appearance and excellent resistance to tarnish and wear.
- **Compact Dimensions:** A **16mm backset** and **64mm x 32mm case** make it ideal for small-scale applications like cupboards and drawers.
- **Simple & Secure:** The **1-lever mechanism** offers dependable security

without the complexity of multi-lever systems.

- **Easy Installation:** Designed for quick and hassle-free fitting, saving valuable time on the job.
- **Versatile Application:** Perfect for joiners, carpenters, and DIY enthusiasts working on furniture, kitchen cabinets, office storage, and display units.
- **Complete Kit:** Each lock includes two keys, ensuring you have a spare right from the start.

Ideal for:

- **Joiners & Carpenters:** A reliable staple for custom furniture, cabinets, and built-in storage.
- **Kitchen & Bathroom Fitters:** Securely lock cupboards and drawers in high-use environments.
- **Shopfitters:** Perfect for securing display cabinets and counter units.
- **Architectural Ironmongers:** A high-quality component for projects requiring classic finishes and dependable function.
