

## Blum Aventos HF Top Lever Arm Set – Cabinet Height 840–1200mm

Variant code: 22F3900

### Evolve Your Kitchen Design with the Aventos HF Top Bi-fold Lift System (600–910mm)

Transform your wall cabinets with the premium Aventos HF Top Bi-fold Lift System, designed for seamless functionality and sophisticated aesthetics. This set, including levers, is specifically engineered for cabinet heights ranging from 600mm to 910mm, offering unparalleled access and convenience for your kitchen storage.

#### Key Features & Benefits:

- **Effortless Bi-fold Movement:** The Aventos HF Top system allows cabinet fronts to fold smoothly and lift upwards, providing unrestricted access to the cabinet's contents. Perfect for larger, heavier fronts, this system ensures a fluid and graceful opening and closing motion.
- **Optimal Space Utilisation:** The bi-fold design is ideal for high wall cabinets, maximising vertical space and creating a clean, uncluttered look. Say goodbye to traditional hinged doors that obstruct your workspace.
- **Integrated BLUMOTION Soft-Close:** Experience silent and gentle closing every time. The integrated BLUMOTION technology ensures that even heavy fronts close softly and effortlessly, preventing slamming and enhancing longevity.
- **Adjustable Front Alignment:** Achieve perfect front alignment with easy 3-dimensional adjustment, ensuring a flawless finish for your cabinetry. Fine-tune the gap and overlay for a professional and precise installation.
- **Variable Stop Position:** The variable stop feature allows you to hold the front in any desired position, providing convenient access while keeping your hands free.

- **High Stability and Durability:** Engineered with high-quality materials, the Aventos HF Top system is built to last, offering reliable performance for years to come.
- **Easy Installation:** Designed for user-friendly installation, this set includes all necessary components for a straightforward setup.
- **Lever Set Included:** This package comes complete with the required lever set, ensuring compatibility and seamless integration with your chosen cabinet fronts.
- **Ideal for Medium to High Wall Cabinets:** Specifically designed for cabinet heights between 600mm and 910mm, this system is perfect for a wide range of kitchen designs.

**Applications:**

- Kitchen wall cabinets
- Pantry cabinets
- Storage units
- Commercial cabinetry

**Upgrade your kitchen with the Aventos HF Top Bi-fold Lift System and experience the perfect blend of functionality, elegance, and durability. Order yours today and transform your kitchen storage into a seamless and sophisticated experience.**
