Blum Aventos HF Top Lever Arm Set - Cabinet Height 480-610mm

Variant code: 22F3200

Elevate your kitchen or living space with the **Av entos HF Top Bi-fold Lift System, Lever (Set)**, designed for cabinets with heights ranging from 480mm to 610mm. This premium cabinet hardware solution offers smooth, effortless access to overhead cabinets, combining functionality with sophisticated design.

Key Features and Benefits:

- **Bi-fold Design:** The Aventos HF Top system allows cabinet doors to fold upwards and outwards, providing unobstructed access to the cabinet's contents. This design is perfect for maximising space and creating a modern, streamlined look.
- **Smooth and Silent Operation:** Engineered with precision, the lever mechanism ensures a fluid and near-silent lifting and lowering motion. Say goodbye to slamming cabinet doors and enjoy a more refined user experience.
- **Adjustable Lifting Force:** The lever system allows for easy adjustment of the lifting force, ensuring optimal performance regardless of the door's weight. This adaptability guarantees smooth operation for a variety of cabinet door materials and sizes.
- **High-Quality Construction:** Crafted from durable, high-grade materials, the Aventos HF Top system is built to last. Its robust construction ensures long-term reliability and consistent performance.
- **Easy Installation:** Designed with user-friendliness in mind, this bi-fold lift system offers straightforward installation, making it suitable for both professional installers and DIY enthusiasts.
- **Space Optimisation:** Ideal for overhead cabinets in kitchens, offices, or living rooms, the bi-fold design maximises usable space and enhances accessibility.
- **Modern Aesthetics:** The sleek and contemporary design of the Aventos HF Top system adds a touch of elegance to any interior, complementing a wide range
