

Blum Aventos Servo-Drive Motor Pack – For HL, HS & HF Top Lift Systems

Variant code: 23.A000

The Blum Aventos Servo-Drive Motor Pack is an electrical motion support system designed to enhance the functionality of Blum's Aventos HL, HF and HS Lift Systems for wall cabinets.

PLEASE NOTE: Blum Aventos Servo-Drive Cable Pack, Node, and Transformer Pack must be bought in conjunction with the Motor Pack for full operation.

Experience the pinnacle of kitchen convenience with the Aventos HL/HF/HS Top Servo-Drive Motor Pack. This premium motor pack transforms your Blum Aventos lift systems into effortlessly automated solutions, bringing a touch of luxury and accessibility to your overhead cabinets.

Seamless Automation for Effortless Access:

Say goodbye to reaching and straining. The Servo-Drive Motor Pack for Aventos HL, HF, and HS lift systems enables touch-to-open and gentle, soft-close functionality. A simple press on the cabinet front initiates the smooth, motorised opening, while a touch on the easily accessible switch closes the door silently and securely.

Key Features and Benefits:

- **Universal Compatibility:** Designed specifically for Blum Aventos HL (parallel lift up), HF (bi-fold lift up), and HS (lift up stay) systems, ensuring a perfect fit and seamless integration.
- **Effortless Operation:** Enjoy hands-free opening and closing with intuitive touch activation, ideal for busy kitchens and users with limited mobility.
- **Enhanced Accessibility:** Makes high-level cabinets easily accessible, improving kitchen ergonomics and usability.
- **Soft and Silent Closing:** The integrated Blumotion technology ensures a gentle, quiet closing action, preventing slamming and extending the lifespan of your cabinets.
- **Increased Convenience:** Simplify daily

kitchen tasks with automated cabinet operation, freeing your hands for other activities.

- **Premium Quality and Reliability:** Backed by Blum's renowned engineering and durability, guaranteeing long-lasting performance.
- **Easy Installation:** Designed for straightforward integration with existing Aventos lift systems.
- **Modern and Sleek Design:** The discreet motor pack integrates seamlessly into your cabinet design, maintaining a clean and sophisticated aesthetic.

Ideal For:

- Modern kitchens seeking enhanced convenience and functionality.
- Users with limited mobility or accessibility needs.
- Those looking to upgrade their existing Blum Aventos lift systems.
- Design-conscious homeowners who appreciate premium quality and innovation.
- Kitchen designers and installers looking for high quality automated cabinet solutions.
