

Blum Aventos Top Cover Cap Set – Suitable for HL/HF/HS Lift Systems – Light Grey

Variant code: 22.8000LG

Blum Aventos Top Cover Cap Set – Suitable for HL/HF/HS Lift Systems – Light Grey is a decorative cover cap solution designed to conceal and protect the visible components of Aventos lift systems. Manufactured by Blum, a leading brand in furniture fittings known for precision engineering and long-term reliability, this cover cap set is specifically developed for use with Aventos HL, HF and HS lift systems.

The cover caps are designed to fit neatly over the lift mechanism arms, providing a clean and consistent finish to cabinet interiors. In addition to improving aesthetics, they help protect internal components from dust and minor surface contamination, supporting the long-term performance of the mechanism. The **light grey finish** complements modern cabinetry and aligns with Blum's standard system colour schemes, ensuring visual consistency across installations.

Designed for straightforward installation, the caps clip securely into place without the need for additional tools. They integrate seamlessly with compatible Aventos systems, making them suitable for both new installations and retrofit applications. As part of the wider Blum Aventos range, they contribute to a refined and professional cabinet finish where lift systems are used.

Product Features

- **Cover cap set for Blum Aventos lift systems**
- Compatible with HL, HF and HS lift mechanisms
- Provides a clean, concealed finish to visible components
- **Light grey finish** to match Blum system aesthetics
- Clip-on design for quick and simple installation
- Protects internal mechanism areas from dust

Product Benefits

- Enhances cabinet appearance with a consistent finish
- Conceals mechanical components for a cleaner look
- Supports long-term system performance by reducing exposure
- Simplifies installation with tool-free fitting
- Maintains visual alignment across Blum fittings
- Suitable for both new and retrofit applications

Technical Characteristics

- Designed specifically for Aventos HL, HF and HS systems
- Clip-on fixing method for secure attachment
- No additional tools required for installation
- Compatible with standard Blum lift mechanism configurations
- Lightweight and durable plastic construction
- Store in a clean, dry environment prior to installation

Applications

Blum Aventos Top Cover Cap Set is suitable for use in residential and commercial cabinetry where Aventos lift systems are installed. Typical applications include kitchen wall cabinets, storage units and fitted furniture where lift-up doors are used. The cover caps provide a finished appearance in visible cabinet interiors, making them particularly useful in high-specification installations where attention to detail and visual consistency are important.
