Blum Aventos Top Cover Cap Set - Suitable for HL/HF/HS Lift Systems - Silk White

Variant code: 22.8000SW

Blum Aventos Top Cover Cap Set - Suitable for HL/HF/HS Lift Systems - Silk White is a decorative cover cap solution designed to conceal and protect the visible components of Aventos lift systems. Manufactured by Blum, a brand recognised for precision-engineered furniture fittings, this cover cap set is specifically developed for use with Aventos HL, HF and HS lift systems.

The caps are designed to clip over the lift mechanism arms, creating a clean and consistent internal cabinet finish. In addition to improving aesthetics, they help protect exposed components from dust and minor contamination, supporting the long-term performance of the lift system. The **silk white finish** aligns with modern cabinetry and Blum's system colour palette, ensuring a cohesive and refined appearance.

Installation is quick and straightforward, with a **clip-on design** that requires no additional tools. The caps integrate seamlessly with compatible Aventos systems, making them suitable for both new installations and retrofit applications. As part of the wider Aventos range, they contribute to a professional, finished look in cabinet interiors where lift systems are visible.

Product Features

- **Cover cap set for Blum Aventos lift systems**
- Compatible with HL, HF and HS lift mechanisms
- Conceals visible mechanical components
- **Silk white finish** for modern cabinet aesthetics
- Clip-on design for fast, tool-free installation
- Protects mechanism areas from dust and debris

Product Benefits

- Enhances cabinet appearance with a clean, uniform finish

- Conceals internal hardware for improved visual presentation
- Supports long-term performance by reducing exposure to contaminants
- Simplifies installation with quick-fit design
- Maintains consistency with Blum system components
- Suitable for both new and retrofit installations

Technical Characteristics

- Designed for Aventos HL, HF and HS lift systems
- Clip-on fixing method for secure fit
- No tools required for installation
- Compatible with standard Blum lift configurations
- Durable plastic construction
- Store in a clean, dry environment prior to use

Applications

Blum Aventos Top Cover Cap Set is suitable for residential and commercial cabinetry where lift-up door systems are installed. Typical applications include kitchen wall units, overhead storage cabinets and fitted furniture. The silk white finish is particularly suited to light-toned or contemporary interiors, where a clean and coordinated appearance is required. These cover caps are ideal for installations where visible hardware needs to be concealed to achieve a refined, professional finish.
