Blum Aventos HK-S Lift Mechanism Set - Tip-on - Power Factor 960-2215

Variant code: 20K2E00T.S.DG.SET

Blum AVENTOS HK-S TIP-ON Lift Mechanism Set - Power Factor 960–2215 is designed for stay lift applications requiring handle-less operation, enabling smooth upward opening of cabinet doors with a light push. Engineered as part of Blum's AVENTOS lift system range, this mechanism uses **TIP-ON mechanical opening technology**, allowing doors to open without handles for a clean and minimal cabinet design.

The HK-S system is suitable for medium to larger wall cabinets, providing stable and controlled upward movement of single-panel fronts. The mechanism supports ergonomic access while maintaining a compact internal footprint, making it suitable for a wide range of cabinet configurations.

The **Power Factor range 960–2215** defines the lifting capacity of the system when matched with cabinet height and door weight, ensuring optimal performance. Supplied as a **left and right mechanism set**, it delivers balanced operation and consistent movement across the cabinet front.

Product Features

- Designed for **Blum AVENTOS HK-S lift systems**
- **TIP-ON mechanical opening** for handle-less operation
- Suitable for **medium to larger cabinet applications**
- **Power Factor range 960–2215**
- Supplied as **left and right mechanism set**
- Smooth upward opening motion

Product Benefits

- Enables clean, **handle-less cabinet design**
- Provides easy push-to-open functionality
- Improves access to cabinet interiors
- Supports ergonomic and space-efficient cabinet layouts

- Ensures stable and balanced door movement

Technical Characteristics

- Requires correct **Power Factor selection** based on door size and weight
- Designed for integration within Blum AVENTOS lift system range
- Suitable for various cabinet heights within specified range
- Requires compatible TIP-ON components and fittings
- Correct configuration ensures optimal performance

Applications

This lift mechanism set is suitable for kitchen wall cabinets, storage units and fitted furniture where handle-less upward-opening doors are required. It is particularly effective in modern cabinetry designs, providing smooth operation, reliable performance and improved accessibility in residential and light commercial environments.
