

## Blum Aventos HK-S – Tip-on – 2 Pieced Stay Lift Mechanism – Dark Gray / Stainless Steel Brushed – Power Factor = 960–2215

Variant code: 20K2E00T06.DG

### Unlock Effortless Overhead Cabinet Access with the Blum Aventos HK-S Tip-on Stay Lift

Experience smooth and silent opening and closing of your smaller, lighter wall cabinets with the **Blum Aventos HK-S Tip-on Two-Piece Stay Lift Mechanism**. This high-quality fitting solution combines the renowned durability and precision engineering of Blum with the convenience of their handle-less **Tip-on** technology. Finished in a sophisticated **dark gray** and **stainless steel brushed** design, this mechanism not only enhances the functionality of your cabinetry but also adds a touch of modern elegance.

Designed for single front flaps, the Aventos HK-S offers exceptional ease of use. A gentle press on the cabinet door is all it takes to activate the **Tip-on** opening function, allowing the door to lift smoothly and stay securely in any desired position. To close, simply press the door shut. This makes accessing the contents of your wall cabinets incredibly convenient, especially in kitchens, bathrooms, or utility rooms.

This particular model boasts a **power factor** ranging from **960 to 2215**. The power factor is a crucial measurement that determines the appropriate stay lift mechanism for your specific cabinet door dimensions and weight. This broad range ensures compatibility with a variety of cabinet sizes, providing reliable and balanced movement.

### Key Features and Benefits:

- **Tip-on Technology:** Enjoy handle-less convenience with a simple touch to open.
- **Two-Piece Stay Lift:** Compact design ideal for smaller wall cabinets.
- **Variable Stop:** The door stays open in any position you desire, providing easy access.
- **Soft and Silent Closing:** Optional

Blumotion soft-close can be integrated for enhanced comfort (Blumotion unit sold separately).

- **Easy Assembly and Adjustment:** Blum's renowned clip-on technology and intuitive adjustment options make installation straightforward.
- **Durable and Reliable:** Built to Blum's high-quality standards for long-lasting performance.
- **Stylish Finish:** The combination of **dark gray** and **stainless steel brushed** offers a modern and aesthetically pleasing look.
- **Wide Power Factor Range (960-2215):** Suitable for a variety of cabinet door weights and sizes.

**Ideal For:**

- Kitchen wall cabinets
- Bathroom vanity units
- Utility room storage
- Any application requiring easy access to smaller overhead cabinets

Upgrade your cabinetry with the **Blum Aventos HK-S Tip-on Two-Piece Stay Lift Mechanism** and experience the perfect blend of functionality, convenience, and style. Ensure the correct power factor for your application to achieve optimal performance.
