

Blum Aventos HS Top Lift Mechanism Set – Servo-Drive Compatible – For Heights 480–660mm

Variant code: 22S2500

Improve the Ease of Your Kitchen Design with the Aventos HS Top Lift Mechanism Set (480–660mm) – Servo Drive Compatible

Transform your kitchen cabinets with the sleek and effortless functionality of the Aventos HS Top Lift Mechanism Set. Designed for high, single-panel fronts, this premium lift system provides smooth, silent, and reliable opening and closing, enhancing both the aesthetics and usability of your space.

Perfect for wall cabinets above refrigerators, pantries, or tall storage units, the Aventos HS Top set is specifically engineered for front heights ranging from 480mm to 660mm. This versatility ensures compatibility with a wide range of cabinet designs, allowing you to achieve a seamless and integrated look.

Key Features and Benefits:

- **Effortless Access:** The Aventos HS Top lifts the entire front panel upwards, providing unrestricted access to the cabinet's contents. Say goodbye to awkward reaching and fumbling.
- **Soft-Close BLUMOTION:** Integrated BLUMOTION technology ensures gentle and silent closing, preventing slamming and protecting your cabinet doors from damage.
- **Servo-Drive Compatibility:** This set is specifically designed to work seamlessly with BLUM's SERVO-DRIVE electrical opening support system. Experience the ultimate convenience with a touch-to-open function, ideal for handle-less kitchen designs. (Servo Drive unit sold separately.)
- **Adjustable Opening Angle:** Customise the opening angle to suit your needs and preferences, maximising accessibility and

comfort.

- **Stable and Reliable Operation:** Engineered with high-quality materials and precision mechanisms, the Aventos HS Top delivers consistent and reliable performance for years to come.
- **Easy Installation and Adjustment:** The set includes all necessary components and clear instructions for straightforward installation. Fine-tuning adjustments are easily made to ensure perfect alignment and smooth operation.
- **Enhanced Kitchen Aesthetics:** The clean lines and minimalist design of the Aventos HS Top contribute to a modern and sophisticated kitchen aesthetic.
- **Durable and Long-Lasting:** Built to withstand the rigours of daily use, this lift mechanism set is a durable and reliable investment for your kitchen.
