

Blum Revego Duo – Hinge Bracket Set – For Pocket Height 1657–1806 mm – Left Hand

Variant code: 802T1650.L3

Blum REVEGO Duo: Hinge Bracket Set | Left Hand | 1657–1806 mm

Transform your living space with the **Blum REVEGO Duo Hinge Bracket Set**, the backbone of the industry-leading pocket door system. Specifically engineered for **Left Hand** applications and a pocket height range of **1657–1806 mm**, this set allows you to conceal entire kitchen runs, home offices, or media centers with a seamless, flush-front finish.

When it comes to **concealed pocket door hardware**, Blum REVEGO is the gold standard for architects and high-end joiners. It's designed to allow large furniture fronts to disappear into a dedicated narrow cabinet (the pocket), then glide back out to hide the interior when not in use.

Key Features & Benefits

- **Precision Engineering:** Built for the REVEGO Duo system, ensuring synchronised movement for double-door applications.
- **Space Optimisation:** Ideal for multifunctional rooms where you need to hide "clutter" (like a laundry station or coffee bar) instantly.
- **Seamless Integration:** Designed for a **Left Hand** configuration with a specific height tolerance of **1657–1806 mm**, ensuring a perfect fit without on-site guesswork.
- **Blum Quality:** Known for durability and "Easy Assembly," the bracket set provides the structural integrity needed for heavy, full-height panels.
- **Aesthetic Excellence:** Achieve a minimalist, handle-less look that aligns perfectly with modern interior design

trends.

Component	Hinge Bracket Set
Orientation	Left Hand (LH)
Pocket Height Range	1657 mm to 1806 mm
Application	Double Door (Duo) Pocket Systems
Finish	Orion Grey / Zinc Plated

Pro-Tips for Installation

- **Level is King:** For any pocket door system, ensure your cabinet carcass is perfectly level and plumb. Even a 2mm deviation can affect the glide of a door this size.
- **Pre-Planning:** Always use the **Blum Product Configurator** before ordering to ensure your pocket width and door thickness are compatible with the 1657–1806 mm height range.
- **Dust Protection:** During the construction phase, keep the tracks and brackets free of sawdust to ensure the longevity of the smooth-running mechanism.

Frequently Asked Questions (FAQ)

Q: Can I use this Left Hand set for a single door (Uno) application?

A: No, this specific bracket set is designed for the **REVEGO Duo** system, which involves a double-door configuration. For single doors, you would require the REVEGO Uno components.

Q: What does "Left Hand" refer to in this context?

A: This refers to the side of the pocket where the hardware is mounted. In a Duo setup, you typically need both a Left Hand and a Right Hand set to complete the system.

Q: Is the height range adjustable?

A: The hardware is designed to function within the **1657 mm to 1806 mm** window. You must ensure your door and pocket height fall within these exact parameters for the warranty and functionality to remain intact.

Quick Summary

- **What is the Blum REVEGO Duo?** It is a professional-grade **pocket door system** that allows cabinet doors to slide into a pocket, hidden from view.
- **Why choose the 1657-1806 mm bracket set?** It is the specific mechanical interface required for medium-to-tall cabinet heights in a **concealed door** setup
