

Blum Revego Duo – Track Set – For Internal Width Within the Application: 1050 mm – Right Hand

Variant code: 802L1050DR3

The Blum Revego Duo – Track Set – For Internal Width Within the Application: 1050 mm – Right Hand

The Blum Revego Duo – Track Set is a cutting-edge **pocket system** designed to **optimize space** and elevate the functionality of your cabinetry. This **innovative** solution, engineered for an internal application width of 1050 mm, allows for the seamless integration of a full kitchen, utility room, or workspace behind doors that can be effortlessly opened and closed.

Key Features and Benefits

- **Effortless Integration:** The Revego Duo transforms your living space by **discreetly concealing** entire functional areas behind a sleek facade. When the doors are open, the system provides **unrestricted access** to the complete cabinet interior.
- **Intuitive Movement:** Experience the ultimate convenience with **easy-to-use** push-to-open and push-to-close functionality. The **precise engineering** ensures a smooth, silent glide for the doors as they slide into and out of their designated pockets.
- **Optimised Space:** This **space-saving solution** is perfect for modern living, providing a clean, minimalist aesthetic when closed while **maximising accessibility** when open. This makes it an ideal choice for compact apartments, open-plan homes, and multi-functional spaces where every millimeter counts.
- **High-Quality Construction:** Built with Blum's renowned **precision and durability**, this **premium** track set guarantees a long-lasting and reliable performance. The **robust** design ensures that doors weighing up to 25 kg per door operate flawlessly.
- **Ergonomic and Safe:** The **right-hand**

configuration is designed for **user-friendly** operation, ensuring an ergonomic workflow. The **secure closing** mechanism prevents accidental opening, adding a layer of safety and stability to your setup.
