

Blum Revego Uno – Adapter Set

Variant code: 801ZG0BS

Blum Revego Uno – Adapter Set – Seamless Electrical Appliance Switch-off

Effortlessly integrate and conceal your electrical appliances with the Blum Revego Uno Adapter Set, providing a clean, minimalist aesthetic while ensuring convenient and reliable switch-off functionality.

This meticulously engineered adapter set is a crucial component for implementing the innovative Blum Revego Uno pivot door system in furniture applications where electrical appliances need to be seamlessly integrated and safely disconnected when the door is closed. Ideal for kitchens, home offices, and living areas, the Revego Uno system allows entire furniture fronts to pivot and slide into a shallow recess, completely concealing the contents, including built-in ovens, microwaves, coffee machines, and more.

Key Features and Benefits:

- **Seamless Integration:** Designed specifically for the Blum Revego Uno system, this adapter set ensures perfect compatibility and a smooth, integrated look. Say goodbye to protruding appliances and hello to a flush, uncluttered design.
- **Automatic Electrical Switch-off:** The primary function of this adapter set is to automatically disconnect power to the integrated electrical appliance when the Revego Uno door is fully closed. This crucial safety feature prevents accidental operation while concealed and conserves energy.
- **Enhanced Safety:** By automatically cutting off power, the adapter set significantly enhances safety, particularly in households with children or pets. It eliminates the risk of appliances being inadvertently switched on while hidden.
- **Space Optimisation:** The Revego Uno system, in conjunction with this adapter set, maximises usable space by allowing appliances to be concealed when not in

use, freeing up valuable countertop or floor space.

- **Clean and Minimalist Design:** Achieve a sleek and contemporary aesthetic in your living spaces. The concealed appliances contribute to a calm and uncluttered environment.
- **Reliable Performance:** Built with Blum's renowned quality and precision, this adapter set guarantees reliable and consistent electrical disconnection and connection with every door movement.
- **Durable Construction:** Crafted from high-quality materials, the Blum Revego Uno Adapter Set is designed for long-lasting performance and durability, ensuring years of reliable operation.
- **Easy Installation:** While requiring integration with the overall Revego Uno system, the adapter set is designed for straightforward installation by qualified professionals.

Technical Specifications:

- **Product Name:** Blum Revego Uno – Adapter Set
- **Function:** Automatic electrical appliance switch-off upon door closure
- **Compatibility:** Specifically designed for the Blum Revego Uno pivot door system
- **Application:** Integration of electrical appliances in concealed furniture fronts
- **Material:** High-quality, durable components
- **Safety Standards:** Complies with relevant electrical safety regulations

Ideal Applications:

- **Concealed Kitchen Appliances:** Ovens, microwaves, coffee machines, integrated refrigerators
- **Home Office Solutions:** Printers, scanners, shredders
- **Living Area Integration:** Entertainment systems, mini-bars
- **Any furniture design utilising the Blum Revego Uno system requiring electrical appliance integration and safety switch-off.**

Elevate your furniture design with the Blum Revego Uno Adapter Set and experience the perfect blend of functionality, safety, and sophisticated aesthetics. Achieve a truly
