Blum Servo-Drive Power Supply Unit Housing - Base Fixing - Nylon

Variant code: Z10NG000

Blum Servo-Drive Power Supply Unit Housing - Base Fixing - Nylon

Ensure a secure and discreet installation for your Blum Servo-Drive power supply with this **durable** and **versatile** housing. Designed for **base fixing**, this **nylon** unit provides a **clean**, **organised** solution, keeping the power supply unit (PSU) neatly tucked away. Perfect for kitchen and furniture applications, it's an **essential** accessory for any **professional** or **DIY** enthusiast looking to achieve a **seamless**, **high-end** finish.

Key Features & Benefits

This housing unit is engineered for both **convenience** and **longevity**. Its **robust nylon construction** offers **excellent durability** and **impact resistance**, protecting the PSU from potential damage. The **base-fixing** design makes for a **straightforward installation** on the cabinet floor or base, ensuring the power supply is held **firmly in place**. The housing is specifically tailored to fit Blum's standard Servo-Drive PSU, guaranteeing a **perfect fit** and **reliable performance**.

- **Secure Installation:** Provides a **stable**, **secure** mount for the power supply unit.
- **Durable Material:** Made from **high-quality nylon**, offering **long-lasting protection**.
- **Discreet Design:** Keeps the PSU **hidden** and the installation **tidy**.
- **Easy to Install: Simple base fixing** for a **quick** and **hassle-free** setup.
- **Perfect Fit:** Specifically designed for Blum Servo-Drive power supply units.

Why Choose Our Blum Servo-Drive PSU Housing?
