

Blum Tandembox Antaro – Intivo – Sink Drawer Side – Height M (83 mm) – NL 500mm – Pair R9006 Grey

Variant code: 378M5004SGV1

Enhance your kitchen's organisation with the **Blum Tandembox Antaro / Intivo Sink Drawer Side**, a premium solution designed specifically for the often-underutilised space around your sink. Finished in elegant **R9006 Grey**, this component offers a minimalist, rectangular aesthetic that complements modern cabinetry while providing the legendary "feather-light" glide Blum is known for.

Product Specifications

- **Model:** Blum Tandembox Antaro / Intivo
- **Type:** Sink Drawer Side (Pair)
- **Height:** M-Height 83mm side wall height
- **Nominal Length (NL):** 500mm
- **Finish/Colour:** R9006 Grey (White Aluminium)
- **Weight Capacity:** Compatible with 30kg or 65kg runners
- **Technology:** Integrated **BLUMOTION** for soft-close functionality

Why Choose the Antaro Sink Drawer?

The **Tandembox Antaro** is characterized by its clear-cut, rectangular design. Unlike standard drawers, the sink drawer configuration is engineered to navigate around plumbing, allowing you to reclaim valuable storage for sponges, detergents, and cleaning supplies right where you need them.

Key Features:

- **Full Extension:** Offers complete visibility and easy access to the back of the

drawer.

- **Modular Versatility:** While this is an Antaro component, it shares the same "tried and tested" cabinet profile as the **Intivo** line, ensuring consistent performance.
- **Tool-Free Assembly:** Features **INSERTA** technology for quick, easy installation and removal.
- **Durability:** Tested for 100,000 opening and closing cycles to ensure a lifetime of use.

Comparison: Blum Tandembox vs. Standard Drawer Runners

Feature	Blum Tandembox (Antaro/Intivo)	Standard Ball-Bearing Runner
Motion Quality	Feather-light glide with nylon rollers	Often noisy; prone to "sticking" over time
Soft-Close	Integrated BLUMOTION (Standard)	Often an add-on or absent
Installation	Tool-free clip-on/off	Requires manual unscrewing
Design	Hidden runners; sleek metal sides	Visible metal rails; requires wooden box
Customization	Compatible with design elements (Glass/Metal)	Fixed design

Frequently Asked Questions (FAQ)

Q: What is the difference between Antaro and Intivo?

- **Antaro** features a minimalist, rectangular gallery rail.
- **Intivo** offers a more personalised look, allowing for "design elements" like glass or leather side panels. Both use the same high-quality runner system.

Q: Can I use this with my existing drawer front?

Yes. Blum Tandembox is designed to be universal. You will simply need the corresponding front fixing brackets to attach your custom drawer front.

Q: Does it come with the runners?

This specific product code typically refers to the drawer sides (pair). For a full kit, you would also need the cabinet runners, back brackets, and a base/back panel.

Q: How do I remove the drawer for cleaning?

Simply pull the drawer to full extension, lift slightly, and pull toward you. The tool-free mechanism allows it to snap off the runners easily.

Pro Tip: When planning a sink drawer, ensure you measure the distance between your sink bowl and the cabinet side to choose the correct width for your "cut-out" section.
