

Brass Overlay Door Angle Hinge For Door Thickness 20mm – Polished Brass

Variant code: AHS-20M

Brass Overlay Door Angle Hinge is a premium furniture hinge designed for **20mm thick overlay doors**, combining timeless elegance with precision engineering. Manufactured from **solid brass** and finished in a luxurious **polished brass**, this hinge delivers exceptional durability, corrosion resistance and smooth operation. Its refined appearance makes it the perfect choice for premium cabinetry, bespoke furniture and architectural joinery where both performance and aesthetics are equally important.

Designed specifically for **20mm door thicknesses**, the overlay hinge provides accurate door alignment and reliable movement while creating a clean, seamless appearance. The polished brass finish reflects light beautifully, adding warmth and sophistication to traditional and contemporary interiors alike. Solid brass construction ensures long-lasting resistance to corrosion and wear, making it suitable for high-quality residential and commercial furniture.

Easy to install and built to last, the Sugatsune Brass Overlay Door Angle Hinge offers a dependable hardware solution for cabinet makers, furniture manufacturers and professional joiners seeking premium quality with an elegant architectural finish.
