Variant code: AHS-20M

Introducing the perfect fusion of classic elegance and modern functionality: the **Brass Overlay Door Angle Hinge**, meticulously crafted for doors with a 20mm thickness. Finished in a stunning **Polished Brass**, this hinge is not just a hardware component; it's a statement piece that elevates the aesthetic of any space.

Enhance Your Doors with Timeless Polish & Durability

Our Brass Overlay Door Angle Hinge is designed for discerning homeowners and professionals who demand both style and substance. The lustrous polished brass finish adds a touch of sophistication and luxury, making it an ideal choice for high-end residential and commercial applications. The solid brass construction ensures exceptional durability and resistance to corrosion, guaranteeing a long-lasting, flawless performance.

Key Features:

- **Premium Quality Material:** Made from solid brass for superior strength and a beautiful, enduring finish.
- **Polished Brass Finish:** A highly polished, mirror-like surface that reflects light beautifully, adding a touch of glamour and warmth.
- **Optimized for 20mm Doors:** Perfectly engineered for a snug and secure fit on doors with a 20mm thickness, ensuring smooth operation.
- **Overlay Hinge Design:** Provides a clean, modern look by concealing the hinge body, creating a seamless and streamlined aesthetic.
- **Versatile Application:** Ideal for interior doors, cabinet doors, and furniture, offering a versatile solution for various projects.
- **Easy Installation:** Designed for a

straightforward installation process,
making it suitable for both DIY
enthusiasts and professional joiners.

- **Corrosion Resistant:** The inherent properties of brass make it highly resistant to rust and tarnish, maintaining its beauty over time.
