

Button-fix™ – Type 2 – Compact Button only – Pack of 100

Variant code: 171-040-3

The **Button-fix™ Type 2 Compact Button (Only)** is the male component of the Button-fix™ Type 2 Compact concealed fixing system, providing a secure, invisible and fully demountable solution for removable panels. Supplied as a **pack of 100 Buttons**, this high-strength fixing component is designed to work exclusively with the **Button-fix™ Type 2 Compact Fix** (sold separately), creating a professional concealed fixing for furniture, wall panels, access hatches and architectural installations.

Once installed onto the frame or substrate, the Compact Button engages with the matching Type 2 Compact Fix using the Button-fix™ concealed locking system, providing a strong and reliable connection while allowing panels to be easily removed for maintenance or future access. Manufactured from durable engineering polymer, the Compact Button delivers dependable long-term performance for commercial, residential and industrial applications.

Ideal for large-scale manufacturing, shopfitting and bespoke joinery, the Button-fix™ Type 2 Compact Button offers an efficient concealed fixing solution with a clean, screw-free finish.
