

Button-fix™ – Type 2 – Compact Button only – Pack of 100

Variant code: 171-040-3

Button-fix™ Type 2 Compact Button (Pack of 100) – Concealed Panel Fixing

The **Button-fix™ Type 2 Compact Button** is an essential component for creating **strong, concealed, and demountable panel fixings**. This pack of **100 Compact Buttons** offers professionals and DIY enthusiasts a reliable, high-volume solution for secure panel installation in various applications.

Key Product Features & Benefits

- **Completely Concealed Fixing:** Achieve a **clean, uninterrupted aesthetic** with no visible screws or hardware on the finished panel surface.
- **Simple 'Button-fix' Installation:** The design allows for a quick and easy **slide-and-click** connection. Simply attach the **Compact Button** to the frame or substrate, and the corresponding **Type 2 Compact Fix** (sold separately) to the panel.
- **Strong & Secure Connection:** Despite its compact size, the fixing system provides a **robust, load-bearing** connection suitable for heavy panels and demanding environments.
- **Demountable/Removable Panels:** Ideal for applications requiring periodic access, such as **service panels, access hatches, wall coverings, and acoustic panels**. Panels can be easily removed and refitted as needed.
- **High-Volume Pack:** This **Pack of 100 Compact Buttons** is perfect for large projects, workshops, and commercial applications, ensuring you have the necessary components on hand.

- **Versatile Applications:** Excellent for fixing **architectural panels, cabinetry, display units, upholstery, signage**, and more.

Fixing Type	Concealed, Demountable Panel Fixing
Material	High-strength polymer (or as specified by manufacturer)
Compatibility	Mates exclusively with the Button-fix™ Type 2 Compact Fix (sold separately)
Installation	Screw-fix directly to the frame/substrate

Frequently Asked Questions (FAQ):

Q: What is the Button-fix Type 2 Compact Button used for?

A: It is used to create a hidden, strong, and completely demountable connection for mounting wall panels, cabinetry, upholstery, and architectural features onto a frame or substrate. It allows the panel to be removed and refitted easily.⁵

Q: Is this a complete fixing set?

A: No, this pack contains 100 Compact Buttons only. To create a complete fixing, you must also purchase the corresponding Button-fix™ Type 2 Compact Fix (the part that screws to the panel and clicks onto this button).

Q: How much weight can the Button-fix Type 2 system hold?

A: The load capacity depends on several factors, including the number of fixings used, the substrate material, and screw quality. It is rated as a high-strength panel fixing; consult the official Button-fix documentation for detailed load-bearing data to ensure safety.

Q: Is the Button-fix system easy to install?

A: Yes, the system is designed for quick and straightforward installation.⁶ The fixings align perfectly, and the connection is made with a simple slide and click action, making it ideal for large-scale installations.

Q: Can I use the Compact Button with other Button-fix types?

A: No, the Type 2 Compact Button is specifically engineered to mate only with the Type 2 Compact Fix. Always ensure you are using the correct corresponding parts for a secure connection.
