

Button-fix™ – Type 2 – Compact Drop-down + Button – Pack of 100

Variant code: 171-040-21

The **Button-fix™ Type 2 Compact Drop-Down Bracket & Button** is a complete concealed fixing system designed for secure, removable panel installations where a **drop-down engagement** is preferred. Supplied as a **pack of 100 complete Bracket and Button sets**, this professional fixing solution delivers an invisible finish while allowing panels to be quickly removed and reinstalled for maintenance, servicing or future access.

Engineered with a compact footprint, the Type 2 Compact is ideal for installations where space is limited or a low-profile fixing is required. The unique **drop-down action** allows the panel to engage by lifting into position before securely dropping onto the Button, making alignment simple and panel removal straightforward. Manufactured from high-performance engineering polymers, the system provides exceptional durability, secure retention and long service life across a wide range of commercial and residential applications.

Perfect for architectural interiors, removable access panels and bespoke furniture, the Button-fix™ Type 2 Compact Drop-Down Bracket & Button offers fast installation, concealed fixing and dependable professional performance.

Product Features

- Complete Button-fix™ Type 2 Compact Drop-Down Bracket and Button set
- Supplied as a pack of 100 complete sets
- Compact low-profile concealed fixing system
- Unique drop-down panel engagement
- Completely hidden once installed
- Suitable for removable panel applications
- Manufactured from high-performance engineering polymers
- Screw-fixed installation (screws not included)
- Approximate engaged panel gap of 3mm
- Provides secure, rattle-free panel retention
- Made in the UK

Product Benefits

- **Creates a completely concealed fixing for a clean, premium appearance**
- **Drop-down engagement allows simple installation and quick panel removal for maintenance**
- **Compact design is ideal for restricted spaces and shallow installations**
- Provides a secure, high-strength connection for removable panels
- Suitable for repeated removal without damaging surrounding panels
- Fast installation helps reduce labour time on site
- Compatible with a wide range of panel materials including wood, MDF and composite boards
- Bulk pack is ideal for commercial projects, manufacturing and shopfitting
